Investigation Carried:

Title of research	Presentation	Place
Azotobacter (biofertilizer) an alternative to wheat production	- Government of agriculture. - The house of culture in the province as an achievement of the University. - At the National Institute of Agricultural Sciences.	Ciego de Avila Ciego de Avila Habana city- Cuba
Agro Economic and Technical productive wheat crop with the use of furrow irrigation	- As a crowning achievement of the University presented the results at the National Institute of Agricultural Sciences.	Habana city - Cuba

Publications

Year	Title	Country
2002	- Azotobacter: an alternative to wheat production.	Cuba
	- Studies on Water Quality for Irrigation and its rating on the Central Region of the province of Ciego de Avila.	Cuba
	- Study of wheat evapotranspiration crop in a red ferralitic soil of Ciego de Avila.	Cuba
	Study of growth and development of wheat crop with using furrow irrigation	Cuba
	- Determination of the technological parameters of furrow irrigation on wheat crop at different alternative types of Azotobacter in the soils.	Cuba

Events in which I participated

Year	Event	Participation
2001	- Second National Wheat Event	Reporter
2000	- First National Wheat Event	Reporter
1995 - 2000	- IX, X, XI, XII Forum of Student on Science and Technology	Reporter

Others activities:

Year	Participation
2003	- Translator for the Embassy of the Great Socialist People's Arab Jamahiriya Libya in Havana
2000	- Co-trustee of a dissertation entitled Study of Wheat Variety Performance in a typical red soil Ferralitic. - Co-trustee of a dissertation entitled Study of Wheat Variety Performance in a red Ferralitic soil in the northern province of Ciego.
1999	- Approved by High Education Ministry to begin my Mastery.
1998	- Opponent of diploma entitled Study of the effect of late planting of the variety CA-204 in performance.
1996-1997	- Student Scientific Group Membership Grain Crop Production Department, Faculty of Agronomy
1993-1994	- Belongs to Scientific Student Group of Agrometrology at the Faculty of Agronomy

Activities at the Studies hydro technical Department of Ciego de Avila University

- Participate in all activities of the Department.
- Supporting the practical activities of the subjects taught by professors of the Department.
- Update the electronic library systematically in the Bank Department Software by thematic.
- Support in the preparation and course development in qualifications, specialization, masters and doctoral students as well as the preparation of publicity materials in the power point.
- Participate as a lead author in the preparation of 5 scientific articles.
- Participate in several scientific events and National Forum of Science and Technology, representing the Department.
