2015 State Legislative Issues So Far

- Biotechnology & GMO Labeling
- Hemp Regulations
- Pollinators
- Invasive Species

Seed Lab Uniformity

- All involved organizations are committed to this effort and are willing to put forth the effort to resolve the multiple issues outlined
- It's a very complex issue involving many passionate and dedicated individuals. As such, it is a process that will take an extended amount of time to complete.
- However, limited funding for many of the proposals will inhibit further movement until resolved.

Biotechnology

- FL SB 416 Sen. Jeremy Ring (DEM-FL)
Requires the Florida Dept of Ag to create lists of raw agricultural commodities at high risk or potentially at risk for cultivation in a genetically engineered form
- NY AB 6509 Asm. Felix Ortiz (DEM-NY)
Strict liability - Requires persons who sell or distribute genetically engineered plants, planting stock or seeds to provide written instructions to purchasers or growers of such stock.

Biotechnology

- PR PC 387 Rep. Waldemar Quiles Rodriguez
Amends “Law of Promotion and Development of Agricultural Biotechnology Companies Puerto Rico” for clarification
- Idaho – pulled from consideration
Pre-emption of local government entities from enacting GMO laws

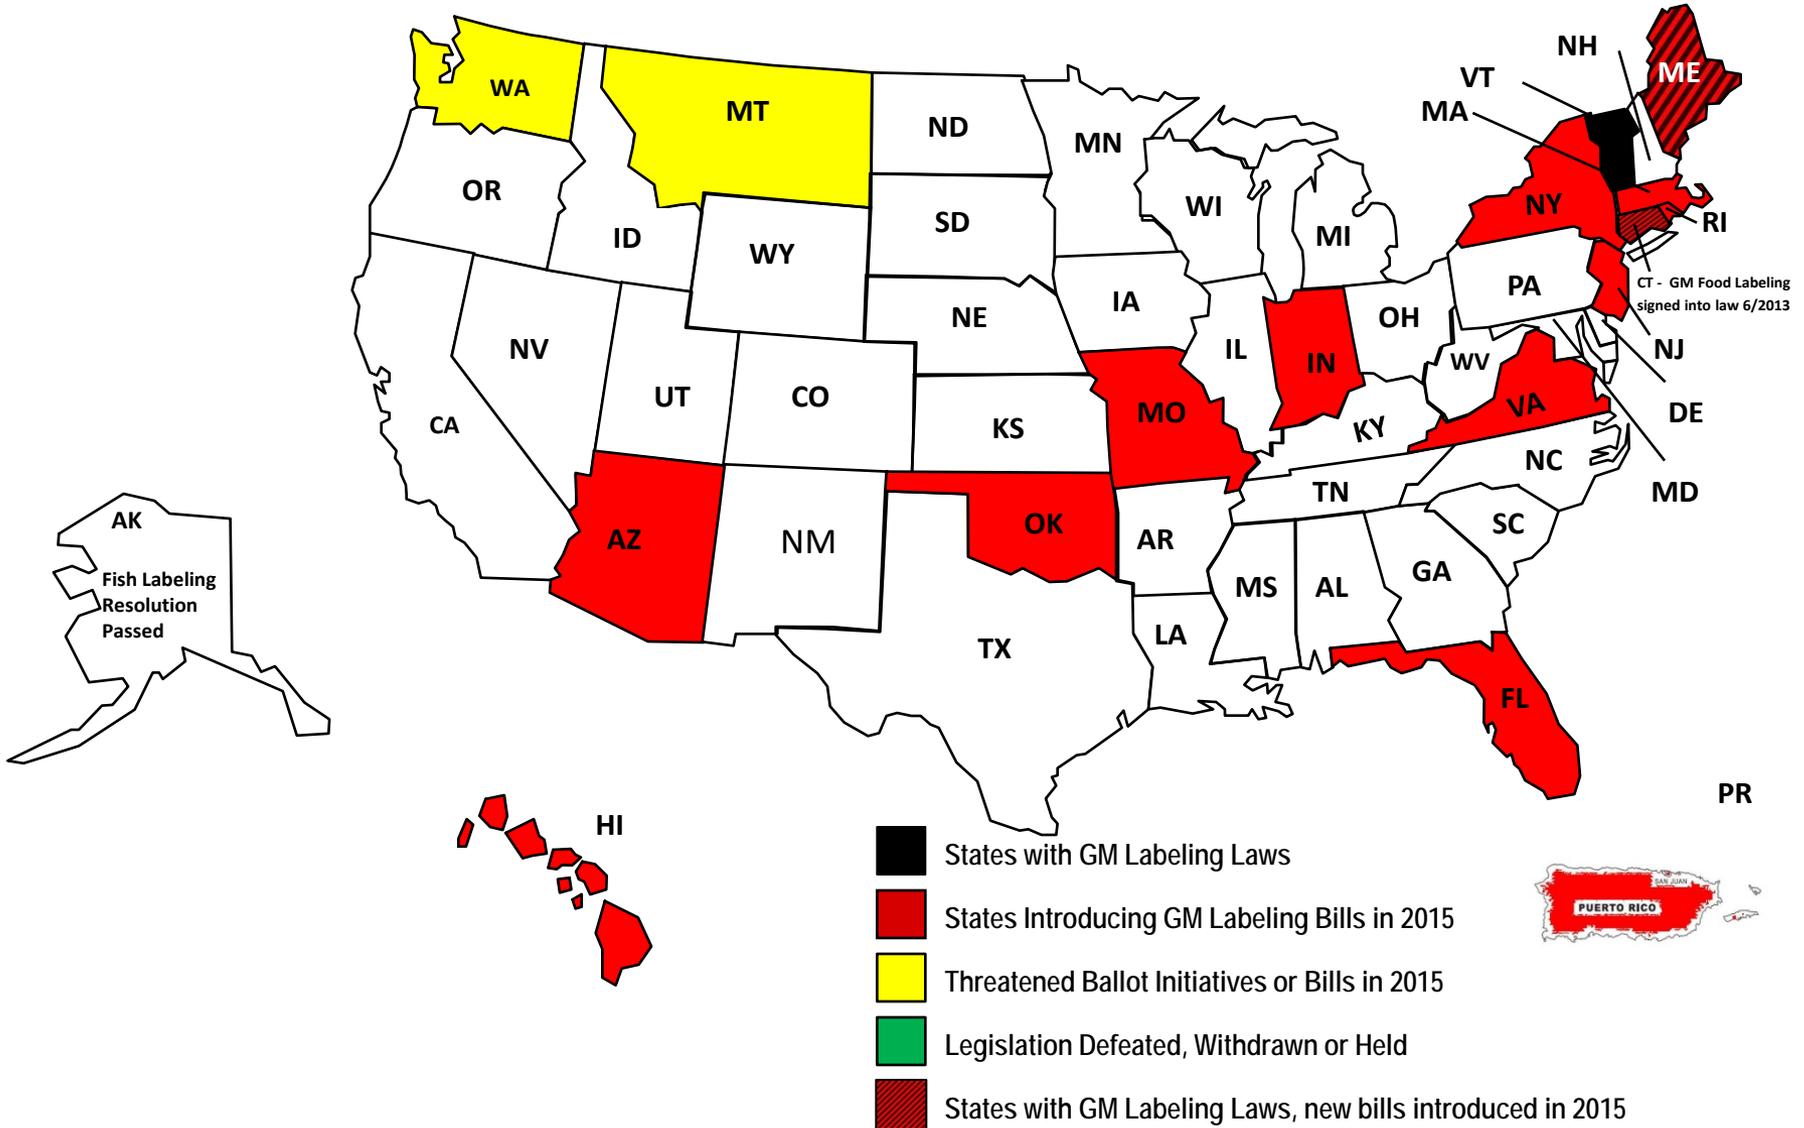

GMO Labeling

- 25 bills filed thus far
AZ, FL, IL (2), IN (2), ME, MT, MO, NJ, NY (9),
PA (2), PR, RI, VA, WA
- Language of all fairly similar
- Special group being formed in NY to deal with the numerous bills.

2015 Biotech Food Labeling Activity

As of 1/23/2015

Maine – GM Food Labeling signed into law 1/10/14.

Thought for the day

Remember, legislation is like Jazz –
it's what is not happening that is important.
